

GeoShack Imaging

Drive Your Future Program

- ◀ The option is now available to rent/demo the Topcon IP-S2 HD Mapper at an affordable rate.
- ◀ This plan allows your firm to test the system on real world projects to help determine its effectiveness in increasing workflow and reducing project time and cost.
- ◀ GeoShack has the resources for fast mobilization and will provide a Mobile LiDAR expert to operate the vehicle and assist with data acquisition.
- ◀ It's a great way to test the most advanced LiDAR technology available on the market.

We Drive the
**IP-S2 HD
MAPPER**

**YOU
COLLECT
THE DATA**

Our LiDAR Specialist
**PROCESSES
THE DATA**

**Additional Software
for Data Viewing
and Full Feature
Extraction**

Mobilization: \$2500

Collect areas exceeding 200 miles beyond any GeoShack location will require an additional \$2.50 per mile charge.

Liner Corridors: \$2000/per mile

Highways, roads, waterways, railways, airport infrastructure and vegetation encroachment and pipeline ROW

Open Areas: \$50 per acre

Landfills, open pit mines, utility corridors, stockpiles and quarries

Notes:

- Additional software may be required for viewing and feature extraction of your project data.
- GeoShack is not providing a service; this is a demonstration of the technology.
- GeoShack is not responsible for setting up base stations and any survey control points required.
- Your company representative must be present to operate equipment.
